record 14 cautions.

The driver of the No. 17 Roush Fenway Racing Ford, who got his first Monster Energy NASCAR Cup Series victory in his 158th career start two months ago at Talladega, established himself as a restrictor-plate wizard with his second straight superspeedway win, this one after three laps of overtime.

Stenhouse lined up behind race leader David Ragan for a restart on Lap 162, after a caution for a backstretch collision involving Jamie McMurray, Denny Hamlin and Erik Jones slowed the action for the 14th time and sent the race to overtime.

Ragan pulled out to a two-car-length lead after the restart, but Stenhouse surged past him near the end of the backstretch and protected the top spot the rest of the way. Clint Bowyer charged into the

runner-up position at the finish, beating third-place finisher Paul Menard to the stripe.

After the Talladega victory, Stenhouse talked team owner Jack Roush into letting him keep the winning car. So the No. 17 team built another

superspeedway car that was just as fast. "I kept my Talladega car and told them to build a new one," said Stenhouse, who locked himself into the postseason playoff with his second victory of the season.

"They built a Fifth Third Ford that was really fast..."

"This is awesome! I've been coming here since 2008. I actually came in 2006 one time with Bobby Hamilton Jr., and it's cool to put it in Victory Lane and get our second win this year. I love it! Thank you to the fans for coming out here. Everyone at NASCAR. What a great weekend. America! 1776! We are the champs!... This validates what we did at Talladega."
