

NOW IS THE TIME!

I got my 1986 El Camino about 15 years ago. The car was a one owner, in good shape. I drove it for many years, making many great memories. I have always wanted to redo the car. I changed the engine, to a 350 with a four bolt main and upgraded the cam.

Now is the time for the body to get done. I did some research into a number of body shops before finding Putnam's Body Shop, LLC. They care about the car and the work they do. I saw a number of older cars they refurbished as well as their work on insurance claims. The results were always sensational, making the vehicles look like new!

I know they will do a great job on my El Camino!
