

## Elliot Interview, Continued from pg 10

Q. Let's bring in William Claude Elliott here. I know he said less than 40 words today, but how cool is this moment to share it with him?

CHASE ELLIOTT: Yeah, he was back in the Bus Stop again, and just trying to get through there, there was a couple times I messed up and then Martin messed up there with a handful of laps left. I had a little bit of a gap, so always nice to hear a comforting voice occasionally.

Q. You told me you were not going to talk a lot. You held true to your promise, right?

BILL ELLIOTT: Pretty much. Just tried to give them information. When something happened over there, I was just trying to be the guy that gave the team information as quick as I could. But with all the technology today, these guys pick it up pretty quick. But I'll tell you what, I'm proud of him. He did a great job today. Mr. Hendrick and all the team guys and all the guys back at the shop, they put a heck of a car together here today.

Q. Mr. H., I think Watkins Glen is becoming his best track; what do you think?

RICK HENDRICK: He's a heck of a road racer, man. That coach over there on the backstretch was giving him some pointers. He told me he went up to play with his dad one day on the road course and he got by him, so I figure Bill helped him out a lot. But man, I'm proud of him. What a race today.
